ITP-2204GTM

22x 10/100Base-TX + 4x 10/100/1000Base-T
Managed Ethernet Switch

These models of industrial grade M12 managed Ethernet switches that provide total 16/26 ports Ethernet connectivity, come with 12/22 ports 10/100Base-TX and 4 ports 10/100/1000Base-T(X).

The switches use M12/M23 connectors to ensure tight and robust connections to guarantee the reliable connections against environmental disturbances, such as strongly vibration and shock, these switches provide wide power input range of 24/48/72/96/110VDC (operating range 16.8 to 137.5VDC) make this product series suitable for rolling stock and track side installations, especially the ITP series switches defined by the EN 50155 standard covering power input voltage and insulation, surge, EFT, ESD, operating temperature as well, thus making the M12 switches suitable for industrial applications, not only for rolling stock, vehicle but also for oil, gas, mining and heavy industry applications.

These switches provide a variety of advanced Ethernet functionalities including STP/RSTP/MSTP/ ITU-T G.8032 ERPS and μ-Ring, μ-Chain (recovery time <10ms @250 devices) for networking redundancy, layer 2 Ethernet IGMP, VLAN, QoS, Security, IPv6, bandwidth control, port mirroring, cable diagnostic and Green Ethernet, can work with CTC Union's platform SmartView™ to provide convenient, real-time and centralized device management.
