IGS-M2404S

3x Modular slot plus 4x 100/1000Base-X SFP Central Switch (Rack)

IGS-M2404S is a 19" rack mountable, modularized industrial Ethernet switch which supports full Gigabit and Fast Ethernet, comes with 3 slots for hot-swappable modules plus an additional 4 ports 100/1000Mbps SFP, that can provide up to 28 ports of Ethernet connectivity. IGS-M2404S's modular design makes your network planning easier and allows greater flexibility by installing PoE/PoE+, 10/100BaseT(X), 100/1000BaseT(X) or dual speed 100/1000M SFP modules in any combination. IGS-M2404S Ethernet switch is designed to meet the demands of mission critical applications for infrastructure and industry, such as traffic control systems (ITS), IP surveillance and production automation applications.

IGS-M2404S supports up to 24 PoE+ ports which provide 30watts power output per port for connecting with heavy-duty industrial PoE PD devices, such as PTZ IP surveillance cameras, high-performance wireless access points, digital signage and IP phones. The IGS-M2404S is designed especially for harsh outdoor cabinet applications with 4KV surge protection to ensure the uninterrupted reliability of PoE systems.

The IGS-M2404S full Gigabit capability increases bandwidth to provide higher performance and provides the ability to quickly transfer large amounts of video, voice, and data across a network. The switch supports a variety of redundant functions, including Ethernet redundancy µ-Ring/STP/RSTP/MSTP/ERPS. It also includes isolated redundant power supplies to increase system reliability and availability for your network backbone.
